

Notice of a Proposal and Public Meeting

To be held by CarbonFree Brandon Solar LP Regarding a Proposal to engage in a Renewable Energy Project

Project Name: CarbonFree Brandon Solar

IESO Reference Number: Not yet available

Project Location: The proposed Project is located at Brandon Road where it intersects Sharpe Road, 9km from Odessa, in the upper-tier municipality of Lennox and Addington, lower-tier municipality of Loyalist Township (the Township), Ontario.

Dated at Loyalist Township this the 2nd of September 2026

CarbonFree Brandon Road Solar LP. is planning to engage in a renewable energy project in respect of which the issuance of a renewable energy approval is required. The distribution of this notice of a proposal to engage in this renewable energy project and the project itself are subject to the provisions of the *Environmental Protection Act* (Act) Part V.0.1 and the Ontario Regulation 359/09 (Regulation). This notice must be distributed in accordance with section 15 of the Regulation prior to an application being submitted and assessed for completeness by the Ministry of the Environment and Climate Change.

Meeting Location:

Date: Wednesday October 7th, 2026

Time: 4:30pm-7:30pm

Place: Odessa Agricultural Society, 231 Main Street Odessa Ontario

Format: Drop-In, Open House Style

Project Description:

CarbonFree Brandon Solar is a renewable energy generation facility which will use solar photovoltaic (PV) technology to generate electricity. Pursuant to the Act and Regulation, the facility, the Project is a Class 3 solar facility project. If approved, this facility would have a total maximum name plate capacity of up to 50MW. Electricity generated by solar photovoltaic panels will be converted from direct current (DC) to alternating current (AC) by inverters and then stepped-up (via pad-mounted inverters, medium voltage transformers and a main substation transformer) to 115 kilovolts (kV) prior to being connected to the existing Hydro One Networks Inc. (HONI) transmission line. The project location is described in the map to the right.

Documents for Public Inspection:

The project is being proposed in accordance with the requirements of the Act and Regulation. The Draft Project Description Report titled *CarbonFree Brandon Solar Draft Project Description Report* describes the facility as a renewable energy generation facility which will use solar photovoltaic technology to generate electricity. Electricity generated by solar photovoltaic panels will be converted from direct current (DC) to alternating current (AC) by inverters and then stepped-up (via pad-mounted inverters, medium voltage transformers and a main substation transformer) to 115 kilovolts (kV) prior to being connected to the existing Hydro One Networks Inc. (HONI) transmission line. A written copy of the Draft Project Description was made available for public inspection on September 2nd, 2026 at www.carbonfreebrandon.com
